6th WORLD CONGRESS
INTERNATIONAL
GASTRO-SURGICAL CLUB
1995
Joint Meeting of Surgeons and Gastroenterologists

December 3-6, 1995
Bangkok, Thailand
2nd Announcement

“New Frontiers in Gastro-Intestinal Diseases: Current Diagnostic and Therapeutic Approaches”
INVITATION MESSAGE FROM
THE IGSC SECRETARY GENERAL

Dear Colleagues:

As the Secretary General of the International Gastro-Surgical Club, it is my great honour to invite you to participate in the 6th World Congress of the International Gastro-Surgical Club to be held in Bangkok, Thailand, December 3rd-6th, 1995.

I would like to stress the importance of this meeting for the future evolution and development of our organisation. Since the founding of the IGSC we continue to move forward and strive to demonstrate the value of a multi-disciplinary approach for the diagnosis and management of GI diseases.

Within this framework, the Bangkok meeting offers a unique opportunity to participate together with colleagues of different disciplines in face-to-face debates, focused on the diagnosis and management of GI diseases, which in spite of modern medical advances, remain conflicting and controversial. This stimulating form of scientific dialogue is a prominent feature in our meetings.

Aside from the scientific importance of this congress, we also promise all participants an extraordinary social programme. I am confident that the warmth of Thai hospitality and their unique culture will be enjoyed by everyone.

In conclusion, I would like to express my sincere appreciation to the Local Organising Committee for an exceptional job of organising this outstanding congress. Our presence together in Bangkok will serve as a lasting bridge between colleagues from east and west. Furthermore, this link will serve to strengthen our ties and our opportunities for a future close cooperation between members of the IGSC and our colleagues in Thailand.

I look forward to welcoming you in Bangkok and I wish you a rewarding and fruitful participation.

Prof. N.J. Lygidakis
Secretary General
